7- Initiatives

- **Helping to establish ISCARSAH National Scientific Committees:**

Görün Arun explained the procedure of establishing ICOMOS National Scientific Committee in Turkey.

- **ISCARSAH Newsletter:**

Maria Margarita SEGARRA LAGUNES stated that she was not receiving enough contributions for the Newsletter. She proposed that ISCARSAH Expert and Associate members be obliged to write an article for the Newsletter every other year as a minimum contribution to ISCARSAH activities. This proposal is unanimously accepted. Each ISCARSAH Member, to keep the membership status, shall write an article for the Newsletter in every two years.

- **Expert Database:**

Görün Arun gave information about the “Expert Database” that 30 ISCARSAH members to date have sent their data for the database.

Namhee KIM’s proposal of adding “cost estimation” to expertise of the database was accepted.

- **Website**

With the efforts of Don Friedman, ISCARSAH website is working well.
